★ WHY THIS RACE MATTERS ★

CA-14 includes a large share of Independent and No Party Preference (NPP) voters who are dissatisfied with establishment politics.

With a crowded Democratic field and only two Republican candidates, Dena has an opportunity to build support across political divides.

Voters are losing trust in politicians who say one thing publicly and do another behind closed doors. Dena offers an alternative to political insiders.

CA-14 voters want representatives who are accessible, community-focused, and willing to challenge political complacency.

Dena's is focused on building a broad coalition of Independents and Republican voters looking for practical leadership and honest communication.
